Dear Doctors and Practice Staff,

Commendation for exceptional service

The North Derbyshire Clinical Commissioning Group has been contacted by NHSE regarding your practice. A member of the public has contacted both NHSE and the Government to highlight the excellent practice of Elmwood Medical Centre's Doctors and Practice Staff.

As a CCG we are made aware of all complaints that are escalated to NHSE but in the four years I have worked for the CCG this has been the only communication relating to a compliment and we thought it very important to relay this to you.

For a member of the public to take the time and effort to communicate with NHSE and the Government is reflective of the strength of good will felt towards the work of the practice. I would encourage you to share this communication to all your staff. Congratulations to you all.

Best wishes

Judy Derricott
Head of Primary Care Quality

Clinical Leader/Chair: Dr Ben Milton

Chief Officer: Dr Chris Clayton
